

Current Status and Issues

The NPHL RRT have developed a manual addressing laboratory RRT management and emergency response mechanisms.

Challenges

- lacks of defined roles and responsibilities

SWOT Analysis

Strength

1. Strong support to extend the RRT capacity to other PHL
2. Availability of strong and dedicated members
3. Availability of updated laboratory inventory

Weakness

1. Limited budget allocation to RRT
2. Lack of specialized and updated lab training programs and manual

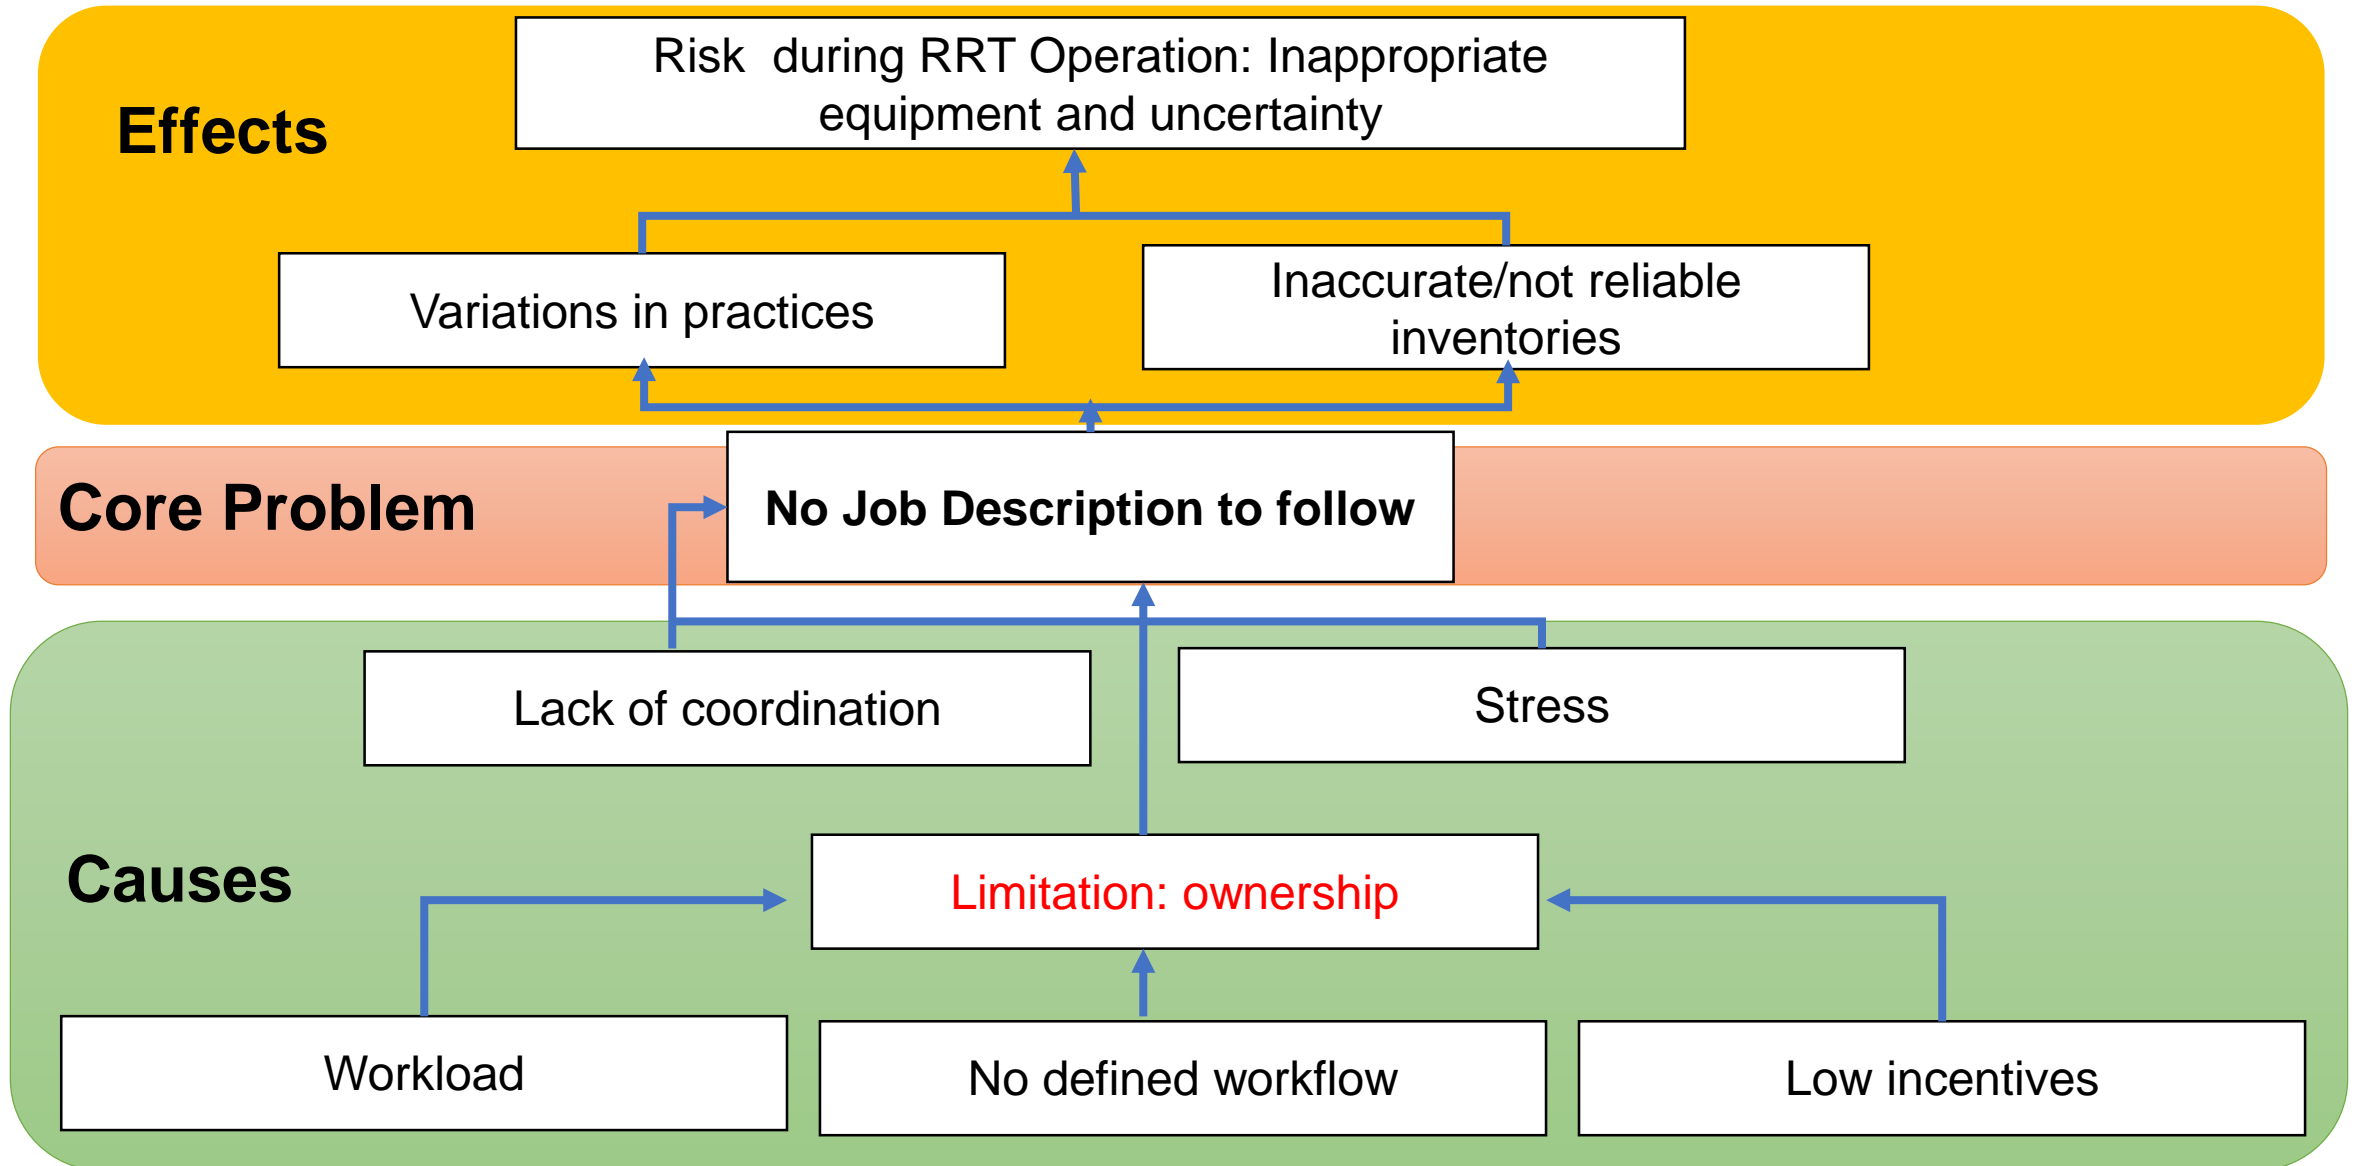

Opportunity

1. Good time to extend the RRT capacity to other PHL (laboratory networking and collaborations with laboratories at local level)
2. Capacity-building initiatives

Threat

1. Budget constraints
2. Resistance to changes in operating procedures
3. Fast turnover of staff

Cause-Effect Relationship

Strategies and methods
