| MISSION | VISION |

- Raring to contribute to the growth of a progressive organization and committed to produce efficient and excellent quality of work with full professionalism.
- Aiming at personality enhancement, knowledge expansion and working skills improvement.

| SELF STRENGTH |

Focused yet multi-tasking, determined and hardworking in achieving the targeted objectives. A result oriented person who is committed in producing the best possible output entrusted by the organization. Being an excellent team player learning from dynamic leaders nurtures and develops my hidden management skills. Armed with sufficient clinical training with experiences in handling management matters I will be able to ensure daily tasks to be executed smoothly and efficiently.

| FIVE REASONS WHY I AM KEEN TO UNDERGO MyTGP TALENT GROOMING PROGRAMME |

“MyTGP” as a unique training programme

I see **“MyTGP”** programme as a unique training programme as it enables aspiring dental officers to pursue their interest in a more flexible manner. Unlike any other training programmes, **“MyTGP”** would allow its admirers to continue their normal working life with minimal changes/ adjustments. By enrolling into this training programme I see myself as being able to continue with my life routine but at the same time able to learn and familiarise myself with the improved culture and work styles.

“MyTGP” as learning opportunity

I have been in service as a Dental Officer for 13 years now and even though specializing came to my mind many times I had to keep the intention due to other priorities and commitments in life. Despite enjoying my current roles, I am keen to grab this golden opportunity of learning new skills.

“MyTGP” as career path

I see **“MyTGP”** training programme as a smart way to fulfil my ambition to become a subject matter expert in clinical and managements. By joining the programme I would be able to learn from the best in the field in a more direct way. I would also be able to contribute my ideas and recommendations to the specialists in my capacity and perspective as a Dental Officer.

“MyTGP” as a new challenge in life

As I have always told myself, there must be a time for me to seek new challenge as dental practitioner. Without a single doubt I was so certain that this is the challenge that I have been looking for when I first came to know about this training programme. With full and undivided support from my husband and family I am sure this is an opportunity that should have not been allowed to pass without myself throwing an effort to grab it.

Myself as a qualified candidate

I truly believe that both my qualifications and skills built upon these years of work experience would best fit the requirements set by the management. In addition to my working experience treating outpatient cases, I have ample management experience as well during my tenure as the ‘Pegawai Pergigian Yang Menjaga’. Enjoying healthy working relationship with all staff is believed to further contribute to my qualification to this training programme. I would be able to effectively contribute to the aspiration of the management with all the factors which I have mentioned earlier. With a correct platform believe that I would be able to develop my skills further.
